

# Pre-Kindergarten

## At-Home Learning

### Note to Parents/Guardians

During this period of closure, your child (children) may be concerned, asking questions, or trying to make sense of everything that is happening. We would like to assist your family through this time by providing helpful suggestions to make this stage away from school a positive learning opportunity.

Routines, schedules, and consistency usually bring comfort to a child's life. Try to maintain these as much as possible. Encourage your child (children) to be creative, learn at home (or outdoors), and grow. There are great, educational websites; but limit screen time in regards to non-essential activities.

This list of at-home learning opportunities reinforces and extends skills to help your child grow educationally while having a little family fun. By being productive and making memories, you can play, learn, and grow together!

Stay healthy!
